CAST STEEL SHOT

About:

Cast Steel Shot is the product of choice for cleaning in every type of wheel machine, as well as room blast, where nozzles are utilized in air blasting. Shot is generally employed in wheel machines where smoother finishes are required. It is also used in spin blast and conveyor applications, when no rebound is present. This product works best in tumblast applications, where the eccentric rebound aids coverage.

Typical Applications:

Cast steel shot is suitable for:

- Ductile / Gray Iron Structural Steel Strip Steel
- Sand Foundries Wire / Bar Drawing Stainless Steel
- Heavy Forgings Steel / Die Castings Aluminum
