LAPIS GOLD SILICA SAND

About:

Silica sand is a natural sand which has been mined throughout the world. It is triple-washed, graded, kiln-dried and packaged to ensure quality and uniformity. It has been tested and is both California ARB certified and NSF 61 certified. Silica sand is preferred over other manufactured sands due to low dust content, cutting ability and eco-friendly attributes.

Typical Applications:

Silica sand is suitable for:

- Concrete patching
- Concrete additive
- Sandblasting concrete, steel and wood surfaces
- Water filtration systems
- Gardens and nurseries
- Aquariums/Terrariums
- Golf courses
- Well Drilling
- Recreational facilities
