About:

Fast Cutting / Long Lasting / Environmentally Green
Best Value C.A.R.B. Approved Al₂O₃

Typical Applications:

**Coarse:** (4 – 5 mil profile)
This aggressive abrasive grit is engineered for tough jobs such as: coating and scale removal, surface preparation and monument carving.

**Medium:** (2-4 mil profile)
This grit combines an aggressive cut with a softer finish and is used for jobs such as: scale removal, surface preparation, monument carving and all around surface preparation.

**Fine:** (1.5 – 3 mil profile)
This grit is engineered for further polish and feathering, as well as light scale and rust removal. It is also used for preparing surfaces (including stainless steel and aluminum) for painting and monument finishing.
